Enterprise GPON

CCP5 / WallPlate Assembly

The CCP5 serves as a single fiber connection/demarcation point and is typically used at the MDU point-of-entry or as the FTTH ONT access point. The unit is directly wall mountable, or may be mounted onto a Single Gang wiring box using an included Wallplate. These enclosures provide a secure location for slack storage and fiber connections.

KEY PRODUCT BENEFITS

- ▶ Compact footprint
- ▶ SC-APC interface with optional internal laser safety shutter
- ▶ Multiple cable entry points
- ▶ Flexible mounting options:
 - Wall
 - Baseboard
 - Wall plate mount
