Model DVC-4 4 LINE DIGITAL VOICE CONNECTOR

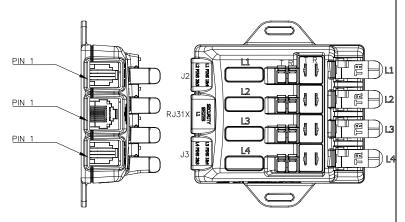

Installation Note

Description

- The tii DVC-4 is an indoor digital voice connector with two RJ-11 jacks, RJ-31X jack and four IDC rockers. It comes equipped with 2 pairs of test points for each line.
- 2. The tii DVC-4 utilizes gel sealed insulation displacement terminations that provide reliable connectivity.
- 3. The tii DVC-4 Series is for indoor use only.
- 4. IDC rockers are used to terminate 26-22 AWG solid wire.

Product Designations

Installation

- 1. The DVC-4 series should be mounted with supplied hardware in dry location.
- Locate the existing phone jack outlet box where telephone wires enter the premises. Disconnect the incoming telephone service to the existing RJ-11.
- 3. Wire unit as shown in Figure 1. Refer to schematic on sheet 2.
- Pull up the IDC rocker's to the fully open position, insert wires as shown in Figure 1 until they bottom out, do not strip wires.
- 5. Push down the IDC rocker to the closed position for termination.
