Tii's OF Series Fixed Outdoor BET and BET/NIDs serve as a network demarcation and distribution point to protect and distribute central office cable pairs at the subscribers' premises.

BET/NIDs utilize the Tii Auto-Jack® to accomplish demarcation point testing. When engaged, the Auto-Jack® connects the RJ11 test plug contacts to the Central Office (CO) for dial tone validation, while disconnecting the customer from the circuit.

KEY PRODUCT BENEFITS

- ▶ Aluminum construction, powder coated beige
- ▶ BET cover utilizes "slam latch" with 216 tool access
- ▶ Padlockable with Telco override
- ▶ Splice chamber requires 216 tool for access
- ▶ Industry standard 5-pin protector field
- ▶ Available with factory installed solid state or gas tube protectors
- ▶ Stackable for additional capacity using a stacking kit

INDUSTRY STANDARDS

- ▶ IDC Connector - Telcordia TR-NWT-001195
- ▶ BET - Telcordia GR-937/GR-2916
- ▶ NID - Telcordia GR-49/GR-239
- ▶ UL Listed to 497
