The 67-2-18 Sealed Wire Terminal is designed to replace standard type 103 binding post terminals, typically found in aerial splice closures.

KEY PRODUCT BENEFITS

- ▶ Terminations are made to gel sealed insulation displacement contacts (IDC) by means of convenient tool-less rocker assemblies. Wire stripping is not required.
- ▶ Compact, low profile design fits into applications where space is limited
- ▶ Equipped with 18", 4 pair cable stub and 4 pair outputs via Tii's sealed IDC/Rocker terminations
- ▶ Accepts 26 through 22 gauge solid conductor wire sizes
- ▶ Provides an upgraded splicing option with Tii's gel sealed IDC rocker design
- ▶ Mounts easily to a suitable flat surface

INDUSTRY STANDARDS

- ▶ UL listed to 1863
