68M-1-1T

The 68M-1-1T Sealed Wire Terminal is designed for applications requiring more than one parallel connection (extension) to a single or two pair service.

KEY PRODUCT BENEFITS

- ▶ Offers 12 parallel extension connections
- ▶ Incorporates integral sealed test points – no additional loose test clips required
- ▶ Accommodates multiple extension connections for one or two line digital voice (or POTS) signals
- ▶ Terminations are made to gel sealed insulation displacement contacts (IDC) by means of convenient tool-less rocker assemblies. Wire stripping is not required.
- ▶ Compact, low profile design fits into applications where space is limited
- ▶ The 68M-1-1T Series may be mounted via screws to a suitable flat surface
- ▶ Accepts 26 through 22 gauge solid conductor wire sizes

INDUSTRY STANDARDS

- ▶ Meets UL 1863
